Student Registration Form (continued) - General Information Continue on extra sheets if you need to. This part could be completed by the Student, but should be checked by the Parent / Guardian before submission.

NAME OF STUDENT:										
ADULT SUPERVISION Tell us about how much adult supervision there will be. Sometimes, students become inattentive (we would like to know if this may be the case, or if the student is simply the silent type). At other times there will be Science experiments or practical exercises - some of these should only be performed if there is an adult on hand to supervise should something go wrong. If the student may be unsupervised, these activities could be postponed until an adult is available. There is no "wrong" answer to this question, as it also depends on the age / maturity of the student!
